LA20 Lawn Aerator

Good aeration is vital for the health of any lawn and it has never been easier to achieve than with the LA20 Aerator. Built to the highest standards, reliability and durability are key to the fantastic performance of this machine. The "off-set" crank operating system allows the power of the engine to punch the tines into the ground resulting in perfect aeration. The LA20 is supplied with both hollow corer tines and solid spikes as standard.

**Excellent for
reducing soil
compaction &
increasing
water
absorption**

Engine	Honda GX160 5.5hp petrol
Working Width	400mm (16")
Aeration Depth	75mm (3")
Spike Details	10mm (Outer Diameter)
Corer Details	19mm (Outer Diameter) 15mm (Inner Diameter)
Weight	90kg
L x W x H (cm)	100 x 70 x 68
Warranty	2 years

Easy access to tines allows the operator to change from spikes to corers in under 5 minutes

LS42 Lawn Scarifiers

The CAMON Lawn Scarifier range comprises three machines, the CAMON LS42 Lawn Scarifier with free swinging blades, the CAMON LS42R Lawn Rake with springs and the LS42F CAMON Verticutter with fixed blades. The reels for the three machines are also available separately and can be interchanged between each machine offering a truly flexible and versatile scarifier ideal for both professional and domestic users.

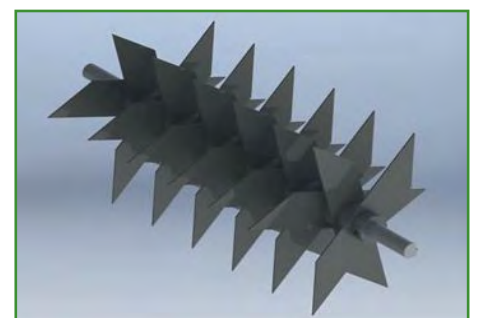

The LS42 models feature a reliable centrifugal clutch which, through a permanently tensioned belt, provides drive to the rotor assembly. The permanent tensioning of the belt ensures that the belt life is considerably prolonged whilst the centrifugal clutch ensures that the machine will not operate when the engine is idling.

Engine	Honda GX160 5.5hp petrol	
Working Width	420mm (17")	
Rotor Assembly	LS42	Free Swinging Blades
	LS42R	Spring Rake
	LS42F	Fixed Blades
Weight	50kg	
L x W x H (cm)	80 x 64 x 60	
Warranty	2 years	

Floating front axle allows the LS42 to follow the contours of a lawn

The **LS42 Scarifier** features independently sprung free-swinging blades with a staggered layout for maximum efficiency and a "waisted" design so they keep their edge for longer and continue to provide fantastic performance. The blade assembly can be reversed to double the life of the blades.

The **LS42R Lawn Rake** is ideal for all year round scarification, allowing lawns to be manicured into a superb condition. Fitted with durable free swinging springs, it effortlessly cleans lawns of unwanted moss and thatch without aggressively disrupting the healthy growing grass.

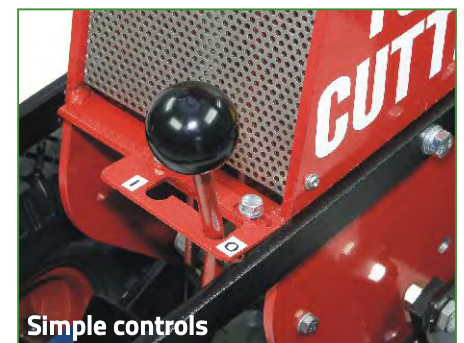

The **LS42F Verticutter** offers truly effective performance results for lawns where slitting is required. The heavy-duty fixed blades are each 2mm thick and the machine is capable of deep scarification. As the machine drives the blades slit the ground which improves drainage and allows for overseeding.

TC07 Turf Cutter

The TC07 is a highly effective self-propelled machine that will cut a strip of turf cleanly, quickly and effortlessly, delivering perfect results. The ideal aid for gardeners and contractors who are looking to landscape an already turfed area, the TC07 features a positive gearbox drive system which maximises traction and provides truly superb performance.

Engine	Honda GX160 5.5hp petrol
Working Width	305mm (12")
Cutting Depth	20mm - 35mm
Weight	93kg
L x W x H (cm)	80 x 64 x 60
Warranty	2 years

**Effortlessly
remove
turf in all
conditions**
